DOS 3.2, 3.2.1 and 3.3: Which version is this?

==

Check two locations to determine which version of DOS your Apple is running.
These addresses are for a 48K Apple; therefore, subtract $4000 (16384) for a
32K system.

```
                      Addresses

        DOS     $9D02 (-25342)     $BD84 (-17020)

        3.2       $81 (129)          $D0 (208)
        3.2.1     $81 (129)          $AE (174)
        3.3       $81 (129)          $0B ( 11)
```
