

Instructions for the Kid Dungeon

Your Dungeon Master disk contains a special dungeon designed just for kids. The Kid Dungeon has many rooms to explore and lots of treasure to find. When you think you're strong enough and brave enough, you can hunt a ferocious Dragon. But, first you'll have to find the hidden key which will let you enter the Dragon's lair.

The following instructions tell how to enter the Kid Dungeon. (You may want to ask your parents for help.)

- Start the game as the manual describes.
- When the entrance to the dungeon appears press and hold one of the following keys:
 - Atari ST press and hold the ALT key.
 - Apple IIgs press and hold the Option key.
 - Amiga press and hold the ALT key.
- While holding down this key press the "enter" button on the right hand side of the doorway.
- Wait for the game to load. (This may require several minutes.)

Once inside the Kid Dungeon you can save your game and continue playing later. When you reload this saved game you will not need to hold down the special key mentioned above.
