The Official Third Courier Sample Nugget Of Wisdom

When you're in West Berlin, you carry Deutschmarks in your pocket. But when you enter East Berlin, that currency must be converted into the communist coin of the realm. Are you following so far? Well, here's the kicker: When you leave East Berlin, you can't take the communist money with you. So your supply of Deutschmarks decreases. Have a nice day.

Playing *The Third Courier* without a Code Book is like going to the World Series without a program, it's like watching a movie with your eyes closed. Think how much richer the experience would be if you knew what you were missing.
